A Bank & Club Just for You!

A Summer to Look Forward to...

Jennifer Braun
Kids Klub Director

Well that was a crazy year! Just think of all the stories you'll be able to tell your kids one day about the year of 2020. So within the past year, what hobbies have you all picked up? Maybe reading or art? Or perhaps it's learning the alphabet or learning new skills for your favorite sport? Whatever it may be... I hope you can look back on the past year and find something positive that came out of being stuck at home. My highlight of the year would definitely be getting a dog. Last May we added a Charcoal Lab to our house. He has brought us so much joy and endless licks of love. His name is North and he weighs about 90 pounds and still thinks he's a lap dog. He's the perfect addition to our family.

Did you receive your Birthday Bucks this year? Saving money is very rewarding. I encourage you to make a goal and fill up your piggy bank. Once it's full bring it into the bank and we can put it through our big coin counter! Think up a few creative ways that you can start saving now... possibly doing some chores around the house or helping your neighbors by mowing the lawn? Every penny counts and the more you save, the more you can buy!

We have not been able to get together for an event in a while so we decided to celebrate "School's Out". We will be hosting Kona Ice of Kenosha on Friday, June 4th at Community State Bank in Union Grove from 3-5 PM. Stop on out for a tasty cold treat! This year has been very challenging, but so many of you made the best out of it. This is a free event to Kids Klub Members so make sure you have your parents mark their calendar so you don't forget.

Whether you're new to our club or you've been a member since birth, we're so glad you are a Kids Klub Member at Community State Bank! We're excited for a new year and hope to have another newsletter out to you by fall. We're looking forward to our annual CSB Pumpkin Patch event and will have more details to come in August! Until then my friends, be healthy and safe and remember to never stop being YOU!

See You Soon,

Jennifer Braun

Market President
Ag Manager

“Bringing Home the Bacon”

What did you have for breakfast this morning? Bacon & eggs? Corn Flakes? Yogurt? How about toast with butter and strawberry jelly?

Where do you suppose that food came from? The grocery store, right? Well of course it did, but where do you think the grocery store got it from?

Almost every single food item in the store was produced by a farmer!

The bacon came from a pig farmer. The eggs were produced by a poultry farmer and the yogurt, milk and butter came from a dairy farmer. But what about the corn flakes or the toast? Well the cornflakes were made with corn and the toast was made with wheat... both come from grain farmers. Even the strawberries that went into the jelly were grown by a farmer and I should mention farmers grow more than just food. They even grow cotton which is made into many of the clothes you wear today!

Farmers do a lot of other cool things for our community too. They need machinery to plant crops, milk cows and plow their fields. They also need supplies to feed and clean their animals and parts to fix their tractors. So when they buy all of those things from local farm-supply stores, they are also helping provide jobs for people in our community.

Many of those farmers continue to operate through the same great bank that you do... Community State Bank. One of my jobs at CSB is working as an Ag Lender. I work with local farmers from all over Southeast Wisconsin to make sure that they have the tools and supplies that they need in order to bring food to your dinner table. Some of those farmers happen to be my greatest friends and let me tell you... they are some of the hardest workers I know.

So the next time that you're at the grocery store with your family, take a look at all the food on the shelves. Whether it's fresh strawberries, canned tomatoes, frozen hamburger or a bag of potato chips, remember that all of those things were produced by a hard working farmer.

I hope each of you are doing well and staying healthy! We appreciate you choosing us as your local bank and hope to see you soon!

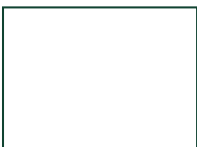

School's Out
A KIDS KLUB EXCLUSIVE EVENT

School is out and after a year like this year, we call that something to celebrate! Join us on the Community State Bank patio for a free Kona Ice Snow Cone! The event is free to Kids Klub Members and their parents. We hope to see you soon!
